OUR GOALS

Work continuously for a health care system accessible and affordable for all ages, and sensitive to needs of the growing population of older people and family care givers.

Foster choices of home and community based services when long term care is needed, and adequate standards vigorously enforced, when nursing home placement is the only answer.

Provide educational and informational materials, to advocate for public and private policy, changes and actions to improve conditions for older people wherever they may live.

Serve as a forum for discussion of concerns of older people including legal and ethical issues, with participation of government officials and service providers.

Develop grass roots support through the sponsorship of Senior Day at the Capitol and association with the Advocacy Partnership for Aging Oklahomans.
